Wednesday 3/15/2023 10:00 am | Meeting Number: 2620 263 3216 | Password: WNYRIC

WNYRIC Monthly Webinar Series:

Tuesday 3/21/2023	1:00 PM	Photo Imports into eSchoolData	Register	Join
Thursday 3/23/2023	9:00 AM	Teacher Connect for Non-Teachers	Register	Join

WNYRIC eSchoolData User Meetings: To better serve our districts, we will be holding our annual WNYRIC eSchoolData User Meeting in the fall of 2023. We hope to offer breakout sessions that will appeal to all new and returning eSD Admin and Coordinators. More information will be released as the time approaches!

Scheduling Season 2023-2024 is Underway: Thank you to everyone who joined our scheduling sessions! We will have one more in-person workshop on March 16, 2023 at our Education Campus (click [here](#) if you plan to attend and have not yet registered). This workshop / training will focus on troubleshooting within the scheduler and will have examples to follow along with if you have not yet reached this stage in your district scheduling yet.

Updates:

Science Investigations in eSchoolData: Many districts are starting to explore effective ways to track the NYS Science Investigations within eSchoolData. Please see the attached PDF outlining the permissions, setup, and entry instructions for utilizing the achievement module within eSchoolData. We encourage you to attend our March Monthly Meeting where this module will be highlighted!

SSO (Single Sign On): Any districts looking to set up SSO should verify that staff emails are included under System > Administration > User Maintenance. You can utilize the report called "Staff User Data" under Reports > Custom Reports > MS Reporting Services.

Reminders:

Scheduling: Students must have a scheduling school and scheduling grade before course requests can be added, keep this in mind for students who transferred into your district after the feeder patterns were run in February. We are completing school setup for individual schools after we receive the [2023-2024 School Setup](#) request.

Summer School Setup: When you are ready, here is the form to submit for [2023 Summer School Setup](#).

On any given day, many of our team members are out in Districts for various trainings and meetings. As always, reach out to the entire team at eschooldatateam@e1b.org if you need immediate assistance, or contact the Help Desk at 716-821-7171 to get transferred directly to a team member who is available.
